# THE SOUTH GLASS STORY

## WHO WE ARE

Since 2014, South Glass has carved its place as a trusted name in automotive and architectural safety glass. As a sister concern of Prakash Glass & Rubber Works — a legacy brand in the industry since 2000 — we're built on experience and driven by precision.

Now expanding our horizons, we've partnered with Pyroguard in a first-of-its-kind tie-up for certified fire-rated glass. We've also launched our range of bullet, blast, and burglar-resistant solutions, while growing into the locomotive and navimotive sectors.

## ETHICS . EXPERTISE . EXECUTION

With a dedicated team, streamlined operations, and unwavering quality control, we've grown into a brand that's as trusted as the glass we make.

## VISION

Our vision is to build enduring creative partnerships rooted in clarity, craft, and consistency. We aim to stay sharp, stay relevant, and let the work speak louder than promises.

NH-44

SOUTH GLASS

## WHERE WE'RE AT

Our factory is situated right on NH-44, the Hyderabad-Bangalore Highway, ensuring smooth logistics and efficient nationwide delivery.

## INFRASTRUCTURE THAT SPEAKES FOR ITSELF

- 1,50,000 sq. ft. built-up area
- Modern pre-engineered facility
- In-house testing lab with BIS 2553 (Part 1 & Part 2), ISO 9001:2015, and ARAI certification
- The only NABL Accredited testing facility in Telangana
- Staff blocks, admin spaces, loading bays — all designed for smooth operations

**STRATEGICALLY  
LOCATED.  
BUILT TO  
DELIVER**

## MACHINES THAT DEFINE THE BENCHMARK

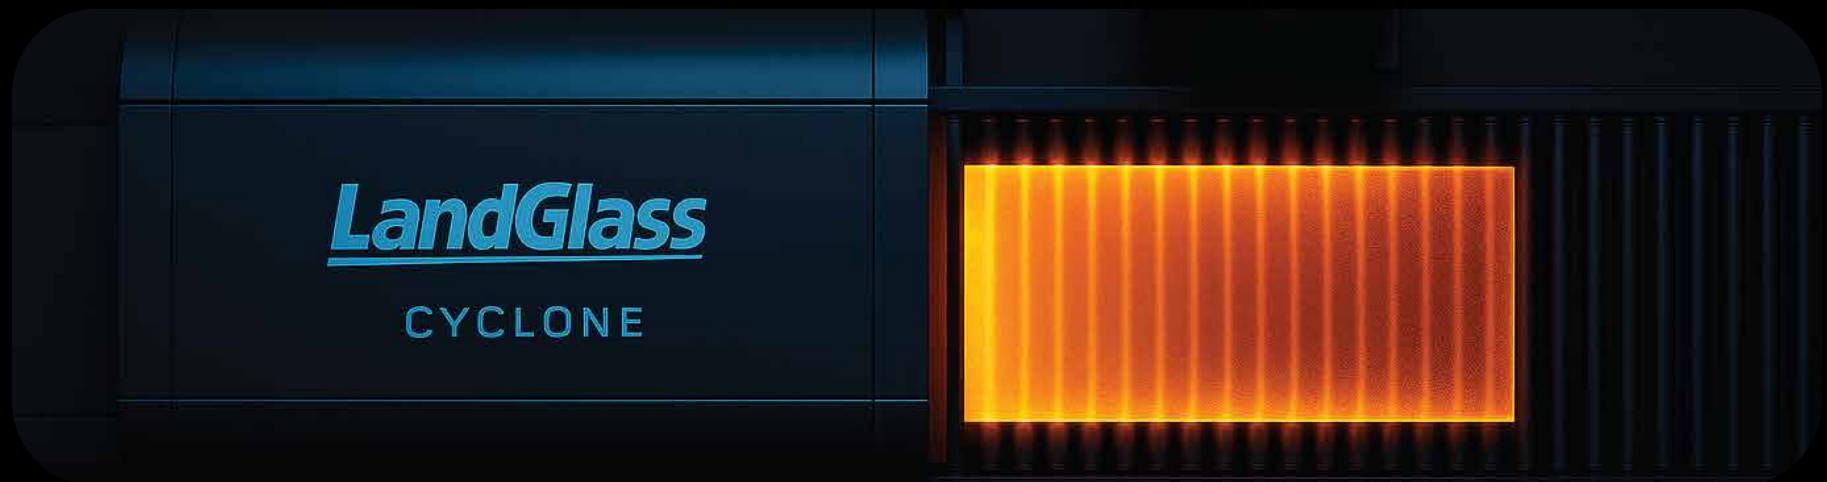

We don't just follow industry standards — we manufacture with the machines that set them. Our facility houses some of India's first and largest advanced equipment, including the LandGlass Cyclone Series Tempering Furnace, known for delivering unmatched mechanical strength and optical clarity.

### KEY EQUIPMENT

- LandGlass Cyclone Tempering Furnace (One of India's first and largest)
- HanJiang Automatic Insulated Glass Line
- LNBF Autoclave
- 2 Intermac CNC Machines with Online Edge Finish
- Double Edger & Seaming by GoLive
- Hangdong Lamination Line

# POWER UNDER THE HOOD

**PRECISION IS  
ENGINEERED,  
NOT GUESSED**

# TRUSTED BY BRANDS THAT BUILD BOLD

## AUTOMOTIVE OEM PARTNERSHIPS

Driving forward with industry leaders in mobility

Our work spans automotive and architectural sectors, with capabilities extending to bullet-resistant, fire-resistant, and blast-resistant glass. We also cater to specialized needs in navimotive and locomotive industries.

## ARCHITECTURAL COLLABORATIONS

Partners in shaping skylines and landmark spaces

# TRUSTED GLASS SOLUTIONS IN LANDMARK PROJECTS

With landmark collaborations across India's top developments, South Glass continues to shape the skyline with precision and trust.

# ENGINEERED FOR AUTOMOTIVE. TRUSTED ON EVERY TURN

From commercial fleets to luxury vehicles, our automotive glass solutions are built with OEM-grade precision and proven safety performance.

Decades of engineering expertise power our expansion into navimotive and locomotive sectors — meeting rigorous standards across every terrain.

Our portfolio includes bullet-resistant, blast-resistant, and burglar-resistant glass — protecting what moves, where it matters most.
